

# SIERRA CAMP

## Sierra Climate Action and Mitigation Partnership

Sierra CAMP is a collaborative effort managed by Sierra Business Council.

**It serves as a dedicated partnership of organizations, businesses & local governments supporting vibrant communities, a resilient environment, and improved quality of life within the region.**

Sierra CAMP activates our region on climate change, building connections with downstream stakeholders while promoting climate adaptation & mitigation strategies across the Sierra.

### Sierra CAMP Priorities

- Educate on & engage in climate solutions
- Provide climate policy analysis & education
- Convene region-wide collaborators to maximize funding
- Support & initiate projects
- Build stakeholder capacity to address climate change

### Recent Impacts

- Placer County Sustainability Plan
- California Tahoe Conservancy Climate Action Plan
- Resilient Mammoth Lakes Climate Adaptation Plan
- Town of Truckee Climate Action Plan

**Join us in creating a more resilient and sustainable Sierra Nevada.**

# Sierra CAMP Membership Benefits

## Membership Entails

- Curated monthly grants email and regular funding guidance
- In-person meetings to convene regional implementers
- Education, including detailed policy and budget breakdowns
- Problem-solving forums
- Peer group and regional collaboration on adaptation
- A niche, collaborative space for planners, elected officials, and community members to align on cross-sectoral climate action and adaptation to maximize available funding
- A storytelling platform to elevate the profile of localized climate impacts on rural areas

**Sierra CAMP Members attend regular statewide ARCCA meetings to share their stories of climate action statewide. ARCCA provides a direct line of communication between our region and state policymakers, allows members to share best practices, and strengthens urban-rural connections.**

## What is ARCCA?

Sierra CAMP is one of seven climate collaboratives across the state that together form the Alliance of Regional Collaboratives or Climate Adaptation (ARCCA).

Through ARCCA, adaptation practitioners:

- exchange knowledge
- engage in targeted problem-solving
- implement joint campaigns
- break down silos across sectors and jurisdictions
- sign shared comment letters on funding and policies

**“Sierra CAMP has created a platform for Placer County to discuss and problem solve climate issues that are important to our residents, business owners, and County officials. Through this collaborative, Sierra CAMP has brought together a working group with a mix of skills and expertise necessary to assist the County of Placer in developing sound solutions. Their efforts are truly appreciated!”**

**- Angel Green, Placer County**
